

# Data License

## For non-commercial and scientific research purposes

Please read carefully the following terms and conditions and any accompanying documentation before you download and/or use the BMLmovi Data (the "Data"). By downloading and/or using the Data, you acknowledge that you have read these terms and conditions, understand them, and agree to be bound by them. If you do not agree with these terms and conditions, you must not download and/or use the Data. Any infringement of the terms of this agreement will automatically terminate your rights under this License.

### Ownership

The Data was collected between July and Dec 2018 at the BioMotion Lab. The funding was provided by NSERC and CFREF VISTA. Data is owned by and proprietary material of Prof. Dr. Nikolaus Troje, Director of the BioMotion Lab, which is currently located at York University, Toronto, Canada.

### License Grant

Nikolaus Troje grants you (Licensee) a non-exclusive, non-transferable, free of charge right:

- To obtain and install the Data on computers owned, leased or otherwise controlled by you and/or your organization;
- To use the Data for the sole purpose of performing non-commercial scientific research, non-commercial education, or non-commercial artistic projects;
- To modify, adapt, translate or create derivative works based upon the Data.

Any other use, in particular any use for commercial purposes, is prohibited. This includes, without limitation, incorporation in a commercial product, use in a commercial service, or production of other artefacts for commercial purposes including, for example, 3D models, pictures, movies, or video games. The Data may not be reproduced, modified and/or made available in any form to any third party without prior written permission from Prof. Dr. Nikolaus Troje.

The Data may not be used for pornographic purposes or to generate pornographic material whether commercial or not, under any circumstances. This license also prohibits the use of the Data to train methods/algorithms/neural networks/etc. for commercial use of any kind. By downloading the Data, you agree not to reverse engineer it.

### No Distribution

The Data and the License herein granted shall not be copied, shared, distributed, re-sold, offered for re-sale, transferred or sub-licensed in whole or in part, except that you may make one copy for archive purposes only.

## **Human Subjects Data**

The Data was captured using a population of students and staff from Queen's University, Kingston, Canada. All participants gave their informed, written, consent for the scientific analysis and publication of their video Data, IMU Data, and 3D motion capture Data.

## **Disclaimer of Representations and Warranties**

You expressly acknowledge and agree that the Data results from basic research, is provided "AS IS", may contain errors, and that any use of the Data is at your sole risk. Nikolaus Troje and the BioMotion Lab make no representations or warranties of any kind concerning the Data neither expressed nor implied, and the absence of any legal or actual defects, whether discoverable or not. Specifically, and not to limit the foregoing, Nikolaus Troje and the BioMotion Lab make no representations or warranties (i) regarding the merchantability or fitness for a particular purpose of the Data, (ii) that the use of the Data will not infringe any patents, copyrights or other intellectual property rights of a third party, and (iii) that the use of the Data will not cause any damage of any kind to you or a third party.

## **Limitation of Liability**

Under no circumstances shall Nikolaus Troje or the BioMotion Lab be liable for any incidental, special, indirect or consequential damages arising out of or relating to this license, including but not limited to, any lost profits, business interruption, loss of programs or other Data, or all other commercial damages or losses, even if advised of the possibility thereof.

## **No Maintenance Services**

You understand and agree that Nikolaus Troje and the BioMotion Lab are under no obligation to provide either maintenance services, update services, notices of latent defects, or corrections of defects with regard to the Data. The BioMotion Lab nevertheless reserves the right to update, modify, or discontinue the Data at any time.

Defects of the Data must be notified in writing to the BioMotion Lab with a comprehensible description of the error symptoms (Email: [movi@yorku.ca](mailto:movi@yorku.ca)). The notification of the defect should enable the reproduction of the error. The Licensee is encouraged to communicate any use, results, modification or publication.

## **Publications using BMLmovi Data**

You acknowledge that the Data is a valuable scientific resource and agree to appropriately cite the most recent paper describing the BMLmovi database in any publication making use of the Data. (Note: Citing the dataset URL instead of the publication(s) would not be compliant with this license agreement). Note that part of the BMLmovi Data is included in the Archive of Motion Capture as Surface Shapes (AMASS; <https://amass.is.tue.mpg.de/>) and was processed using methods introduced by AMASS. Using this part of the dataset falls under the AMASS license agreement and requires you to appropriately cite the AMASS publication by N Mahmood, N Ghorbani, NF Troje, G Pons-Moll, and MJ Black (2019).
